

Only One Bid for Gc Sewer Bond Issue

Council Votes to Reject, Try Again; Construction Bid Opening Tonight

Only one bid for purchase of Granite City's \$150,000 revenue bond issue for sanitary sewer construction was received last night at a special meeting of the council, and it was rejected by a 9-4 vote. New bids are to be sought as quickly as possible.

The lone bid was submitted reluctantly two minutes after the 8 p.m. bid opening deadline by Howard Percy, St. Louis representative of the Chicago firm of Midwest Securities. The brother of U. S. Sen. Charles Percy had arrived on crutches with a foot in a cast prior to 8 o'clock, but waited until after Alderman Bartoski, chairman of the Special Sewer committee, had announced that no bids had been received before submitting the proposal.

Council members debated momentarily before taking it, and then asked Bond Atty. Horace Calvo to review it privately. The aldermen agreed the interest rate would not be disclosed, since the firm might submit another proposal on the second bid day. Calvo commented that the rate was extremely high.

Tight Money

Percy told council members that with the present tight money situation, it was unlikely they could do any better, especially with the 9% interest limitation.

Faced with the opening of construction bids for the sewer work at 7:30 tonight, the council decided to seek new bond bids quickly but to allow ample time for bond houses to submit proposals.

It was brought out the bid notices were mailed last Thursday. Percy said that while his firm was aware of the sale earlier, it did not receive its notice until Monday.

Council members instructed Calvo to seek wider circulation of the bid call, especially in the local area, where prospective buyers would be more familiar with the project.

Council members agreed there should be no contract award.

Committee Still Is Undecided on County Air Law

Members of the county board of supervisor's air pollution control committee will decide next Monday whether to submit the control law, prepared by State's Atty. Leon Scroggins, to the board on Wednesday.

Supervisor Walter Sparks of Chouteau township, a member of the committee, said yesterday he and two others of the five-member committee, favor state controls for a year or more, while the other two members have not expressed definite opinions.

"The three of us feel the control law is not yet ready and the county is not yet ready to do it," Sparks told the Press-Record, adding that there also would be the added cost of at least \$25,000 tax money to administer the law.

The county is seeking a federal law fund grant of \$75,000 for additional funds.

Sparks explained that while a final decision is to be made at a meeting of the committee next Monday, it is unlikely the air control law will be submitted to the board at its meeting next Wednesday in Edwardsville. "Of course," he said, "one of the committee members or supervisor could call for it to be introduced."

The law proposed by Scroggins would be more stringent than state regulations. It is being opposed by area industries whose representatives recommend the county abide by the state set standards.

Starch Co. Sales Office Move Set

Offices of the Union Sales Corporation, Union Starch & Refining Co., Inc., will be moved from Columbus, Ind., to the Granite City plant, with business operations to begin on Dec. 4, it was announced today.

Relocation of the sales offices here is in line with a plan announced last Aug. 17 to transfer the firm's administrative headquarters from Columbus to Granite City.

Joseph H. Hoyt, corporate general manager and chairman of the board, said the move was planned to more closely coordinate and manage the firm's sales, manufacturing and distribution functions of the company. The move involved about 70 Columbus based employees.

Remodeling work to provide office quarters has been under way in an area of the syrup plant. The office of B. J. Hunter, vice-president of domestic operations, was returned here from Columbus last July.

The local plant is a basic corn wet-milling operation and employs about 600 persons. Union Starch also has a plant in Edinburg, Ind.

8 Local Men to Be Drafted Tomorrow

Eight Quad-City area youths are to report early tomorrow morning to the county selective service office in Edwardsville, 132 North Kansas street, for Army induction.

The prospective draftees are to be there at 8:30 a.m.

Next month's quotas for the Quad-Cities are for two men to be drafted Dec. 8 and 16 men to report the same day for pre-induction physical examinations.

Adults will say, "It's impossible," and comment on time flying by much too quickly. Youngsters will grin delightedly and immediately conjure visions of toys and special treats.

Both reactions are commonplace at this time of year, and usually follow an announcement, such as one made today by the Associated Retailers and Civic Association that Santa Claus will arrive in the Quad-Cities just one week from tomorrow.

Morris Helman, chairman of this year's welcoming parade for the jolly old gentleman, said today that Santa will make his first appearance in the Quad-Cities at the McKinley Bridge in Venice at 9 a.m. Friday, Nov. 24.

Solution To Strife at MHS Goes To Board

Committee of Parents Abandons Effort — Board Meets Tonight

Settlement of racial strife at Madison high school, resulting in a four-day school boycott of Madison schools by 1300 Negro students, was left solely up to the school board last night by a 16-member, bi-racial parents' committee.

Two hours after the committee ended a meeting — without results — in the high school cafeteria and had left the school, a large crowd was burned on the high school lawn midway between the gymnasium and the main high school entrance, police reported.

The school board is scheduled to meet in regular session at 7:30 p.m. today. Its members have given no advance indication of official action it plans in an effort to quell the rising number of demands by Negro students and their parents.

Third Meeting

The parents' committee, organized a week ago to assist in settlement of high school problems growing out of Negro student demands for greater participation in the school's athletic programs, convened in its third session at 7 p.m. last night, met only a half hour with members of the high school student council and then adjourned with the announcement that it had reached no decision on the matter in settling the conflict.

George Darling Jr., spokesman for the committee of eight Negro and white parents, said the committee was without conclusions in the matter and "we have no plans to make any recommendations to the school board... we are leaving the problems strictly in the hands of the board."

"Freedom Schools"

A boycott of Madison's six schools by Negro students, which began today with almost 100% effectiveness while N.A.A.C.P. leaders who are sponsoring and supervising the Negro protest action set up a series of "Freedom Schools" in which classes will be conducted after Madison schools close in the afternoon.

Initial Work Under Way On South Nameoki Road

Preliminary work was started Tuesday on the widening and improvement project for South Nameoki road.

All storm sewer, underground utility relocation and right-of-way clearance work is to be accomplished this winter to prepare the way for widening in the spring.

Equipment was moved in at a vacant service station at East 23rd street and Nameoki road which will be project headquarters to the contractor, A. K. Seebold Co.

Preliminary work also includes the removal of trees on the right-of-way, and a highlight has started the removal of sidewalk on the east side of the present two-lane roadway between East 23rd street and Edwardsville road.

Under the contract, which was awarded by the state to Seebold Co. on its low bid of \$689,797, the 1.25-mile stretch of Nameoki road between St. Clair avenue and Edwardsville road (Route 162) is to be widened to four lanes and will have a median strip similar to the north section of Nameoki road.

Electric traffic signals are to be installed at the intersection with East 23rd street and at the junction with Edwardsville road.

The bill was vetoed by Gov. Kerner, however, despite the fact that in meetings early this year he expressed favor of the project and encouraged introduction of the appropriation bill.

The Horseshoe Lake Commission, headed by Henry D. Kander of Granite City, has been working more than ten years on plans for development of the Horseshoe Lake area as a park, recreation and conservation district.

Reiske pointed out that the annual convention of the Illinois State AFL-CIO Council meeting in Peoria in September approved a resolution urging further action on the project, and that the request for a meeting with the governor is action in line with that resolution.

Labor Asks Meet With Kerner on Horseshoe Lake

Arrangements for a conference with Gov. Otto Kerner to discuss the development of Horseshoe Lake as a state park has been initiated by Quad-City area labor leaders, it was reported today by Edwin F. Reiske, president of the Tri-Cities Trades and Labor Council.

Reiske said the Trades Council has requested Rube Soderstrom, president of the Illinois State AFL-CIO Council, to arrange the meeting with the governor and to notify local area labor leaders of such arrangements so that they may be present.

In a letter to Gov. Kerner informing him that Soderstrom was authorized to arrange a conference, the Tri-Cities Trades and Labor Council declared that "great disappointment was expressed that you saw fit to veto the bill which provided for an appropriation of \$400,000 by the state."

The letter said further that "the delegates are greatly disappointed in your action, particularly because federal money would have been made available to supplement the state money."

Represents 23,000 Members

"Our Council represents 23,000 members and we are convinced that practically every member favors the development of this great natural resource (Horseshoe Lake) for a state park."

A legislative measure providing \$400,000 for purchase of about 1700 acres of lake bottomland as the first step in developing the area into a state park was approved by both House and Senate in the 75th General Assembly session earlier this year.

The bill was vetoed by Gov. Kerner, however, despite the fact that in meetings early this year he expressed favor of the project and encouraged introduction of the appropriation bill.

Of the 32 mats, 18 will be rebuilt at the firm's Chicago plant; the others will be repaired here.

Emergency repairs were authorized for Wilson school cafeteria disposal unit, \$216; Wilson deep freeze compressor, \$148; vocational education shop machine, \$101; Stallings school electrical panel, \$100; and Maryville school dishwashing machine, \$100.

Adoption of a new school district policy on building usage was discussed and deferred to the next regular meeting.

The board decided to support an Illinois Association of School Boards dues increase at the annual business session Saturday in Chicago. The IASB is expanding its services in negotiating guidelines, information on legislation and court decisions, administrative screening and surveys to determine educational and building needs.

Annual dues for the district would rise from \$250 to \$728.

Permission was granted for weekly Girl Scout and Boy Scout meetings at Niedringhaus school, Emmanuel Baptist.

Depot Colonel Heads Employment Task Force

Col. Charles E. Hoskin III, Granite City Army Depot commanding officer, this week was named chairman of a six-member Task Force, appointed by East St. Louis Mayor Alvin G. Fields, to evaluate in depth the employment situation in Madison and St. Clair counties and other sections of the two-state metropolitan area.

In appointing Col. Hoskin as Task Force chairman, Mayor Fields designated the Depot commander as a "neutral" official representing the Federal Executive Board of Greater St. Louis, on which he serves as vice-chairman.

Improving, training and increasing job opportunities for disadvantaged people are the anticipated results of the evaluation and study project, according to Mayor Fields. The official said the Employment Task Force will call on more than 200 civic organizations within East St. Louis to sponsor one or more hard-core jobless Negroes in their quest for employment.

"The Task Force believes that with full cooperation, great strides can be made in reducing unemployment in the East St. Louis area," Col. Hoskin said today. "We are asking each local area service club and civic organization to 'adopt' at least one job seeker."

The Depot commander added that citizens interested in furthering this drive for the jobless may contact him at the Granite City Depot. The Task Force is asking club members to help locate available jobs and take a personal interest in placement of an individual into the position, he said.

City Clean Air Board to Wait for 'Legislative Clarification'

Granite City's Air Pollution Control Board will not proceed with enforcement of state standards set by the city council until there is "legislative clarification" of its status under the city's new control ordinance.

The board's acting technical secretary, Prof. Erwin C. Hoelscher, had advised the council last week and told the board at its meeting Monday evening that in his opinion the city has taken away the authority of the board and given it to the state.

A spokesman for industries commented that it is clear that the city council's intent is for the city board to continue its functions and that industry is working to comply with the standards under the new ordinance. He added that the council merely adopted the state standards, and that if the ordinance is studied, it is legal.

nical secretary still have authority. At the board's meeting in the city hall Monday night, attended by six commissioners, Prof. Hoelscher stressed that if the board proceeded with enforcement of the ordinance as it now stands, that it could be interpreted, he added.

During the two-hour meeting, the commissioners discussed the problem with Mayor Partney, who also was in attendance, and stated that he could not legally authorize expenditures by the board if it has no legal status.

Motion Is Made

Commissioner Burton Bernard presented a motion for the board to call upon the mayor to determine if the new city air pollution control ordinance is in need of legislative clarification by the city council before the board proceeds with any of its functions.

The mayor explained that Prof. Hoelscher's letter to the city council last week has been referred to the state Air Pollution Control Board and its technical secretary seeking an interpretation.

Prof. Hoelscher contends the wording of the new ordinance, which incorporates sections of the state clean air law, gives enforcement authority to the state board and the state technical secretary, and that definitions within the original city ordinance and the sections of the state code that have been incorporated in the city law are in conflict.

City board members were of the opinion that the state air board and technical secretary were not in a position to clarify the city's new control law. It was pointed out the state staff is comprised of engineers, and

the conflicts are more of a legal nature. Mayor Partney was asked to have the city's legal staff determine the status of the new city law.

Commissioners Present

Members of the city board in attendance at Monday night's meeting were Henry Bienecki, chairman; Theodore Macios, vice-chairman; Bernard, William Krause, Dr. George T. Wilkins and Alderman Samuel Whitmer.

Macios suggested the board might select a committee to review the new city ordinance and make recommendations to the council for any revisions. But, it was the board's opinion to remedy the situation through the letter to the mayor.

The ineffectiveness of the state board in handling local air control problems was brought out by most of the board members and the mayor. House paint discoloration in

the East Granite area was solved by the local board after an appeal to the state board failed to produce results. Prof. Hoelscher also pointed out it was the city board, and not the state board, that prevailed upon Reilly Tar & Chemical Corp. to switch to gas fuel and eliminate a smoke problem. "The state took credit for that," he added.

Another Problem

Bernard said the board also was faced with a problem of determining where it stands on clean air standards. "We had been for stronger standards than the state, but where the board stands now is not clear. This could be the basis for confusion,"

Commissioner Whitmer, who also is a member of the city council's Air Pollution Control committee, asked for an explanation of how the more stringent standards were set forth in the July 3 ordinance that supposedly was based on the state standards. Bienecki said the July 3 ordinance actually

was a "watered down" version of the Interstate Study and was a compromise between that study and the state. He added that the July 3 ordinance apparently had been prepared by the council committee and city attorney and that the clean air board "never did see the final draft before presentation to the council."

The ordinance, which included hydrogen sulphide controls, was opposed by industries and was changed by council members last month to conform with state standards. Bienecki remarked the city should expect little help from the state. "Why the council has such faith in the state is beyond me," Bienecki added.

Mayor Partney said he favored hydrogen sulphide controls by the city, and said he endeavored to meet with leading industrialists to work out a solution before the council changed the law. "But there was such a fine job of lobbying, that it was foolish to try to stop it,"

County Lawyers Presenting Program on New State Laws

The program, produced as a public service, gives special emphasis to new motor vehicle laws including new regulations for passing, driving at night, the use of electric turn signals and new motorcycle requirements. Rare Luxury for GCHS Cagers This Year—Good Team Height

Don Deterding, like predecessor Ralph Sackett, a former high school basketball player under veteran Collinsville Coach Vergil Fletcher, has Collinsville-type height on his initial team at Granite City high school.

But the Warriors lost most of their starters after the last season and may be partly through the new campaign, which opens Dec. 1, before their new combination jells.

Gary Simpson, six-foot junior, is the only returning starter from the squad that finished with a 16-12 record (4-8 in the Southwestern Conference) in 1966-67. However, John VanBuskirk, also a six-foot junior, saw extensive varsity action.

Mike White, 6' 6" senior, played some varsity ball last season but the probable 1967-68 center, Gary Ridenhour, 6' 5" senior, did not play last year.

Simpson Switching Clubs
VanBuskirk and White are the

likely forwards, with Simpson moving from forward to guard and possibly teaming with Jeff Jones, a senior.

Other candidates include 6' 5" Rich Hutchings, a junior. Together with White and Ridenhour he could provide excellent team height, although the three may not play simultaneously when greater speed is needed.

Speed will be given particular attention in bringing the ball across the ten-second line, a task that troubled the Warriors last season.

Giving the team a boost this week was the addition of some members of the GCHS football team.

Practice has included shooting, passing, dribbling, bounce passing and screening. Layups and jump shots are being emphasized, and "we'll do a lot of shooting when we get the openings."

Deterding commented, "We are teaching the boys how to

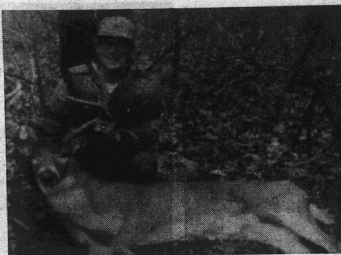

handle the ball while on the move, and to pass until a man is open for a high-percentage shot. They're learning how to protect themselves against the full court press and against double teaming."

Rebounding Strength
The Warriors hope to be tough on defense themselves, aided by the prospect of out-rebounding most opponents.

Even though the team may be somewhat slower than many of its foes, control of the backboards could give it many fast-break opportunities.

Sixteen varsity and junior players are taking part in the drills, and one will have to be dropped by the opening game at Cahokia at 8 p.m. Friday, Dec. 1.

An early meeting between Fletcher and his former star player is scheduled for this week, which pairs Collinsville and GCHS in the conference opener Dec. 8.

Bowland Lanes to Help In 'Toy Shop' Project

Jack Jachin of Bowland Lanes today announced the lanes would be assisting the Salvation Army this Christmas by collecting toys from their patrons for inclusion in the Army's annual "Toy Shop" project.

The bowling alley operator said a free game will be offered all patrons who donate a toy to the Christmas Cheer box, which has been set up at Bowland.

The Salvation Army toy shop will go into operation on Tuesday, Dec. 21, according to Capt. Harold F. Thomas, local commander. At that time, he explained, parents may select toys for their children, many of whom would not receive a Yuletide gift except through the Christmas Cheer program.

Families eligible to receive the toys will be notified by mail, the Army officer said.

NAACP PICKETS in front of the business office of Madison Mayor Stephen Maeras as part of their drive for solution of school problems in Madison. Leading picket, at left, is Mrs. Thomas Weston, president of the Madison branch of the NAACP. Walking behind Mrs. Weston is Mrs. Elizabeth Payne and, at right, Mrs. Mary Ferguson.

MORE ABOUT Solution

dent of the Madison branch of the NAACP, announced first classes were scheduled yesterday at 3:35 p.m. in the Friends of the NAACP Church and the Bethel AME Church in Madison and the American Legion Post 788 home in North Venice, with 20 certified teachers who have volunteered their services for the duration of the boycott.

Response Overwhelming

Today Mrs. Weston said the overwhelming response to the plan resulted in such a large attendance that classes were held only at the Bethel AME church. There wasn't enough room at the other locations to accommodate the large number of students, she added. Use of other locations for classrooms were obtained today at the Southern Baptist church, the St. James Church of God in Christ and the Church of God, Mrs. Weston said.

The meeting of the parents' committee last night followed a similar session Tuesday night. Darling said last night's meeting with student council members was arranged to find out how the students themselves feel about this situation.

"We talked with the student council members only briefly," Darling said, noting that last night's session lasted only half an hour before the committee decided to adjourn without taking action or making any recommendations. Darling said no further meetings of the parents' committee is planned.

Madison police said the flaming cross at the high school last night was made of two pieces of lumber wrapped with rags that had been soaked with gasoline oil. It was discovered about 10 p.m. by school custodians who extinguished the cross and called police.

Telephone Threats

Two anonymous telephone calls were received by the Madison police department threatening that "all hell is going to break loose in Madison after Friday," and that "there is no need to send the children back to school."

One was received at 8 p.m. Tuesday as the city council was opening its general meeting, and the first came Sunday night.

The desk clerk said the voice was that of a male and was clear.

During the meeting Mayor Stephen Maeras commented

that "it must be a crank call, but this is the wrong time to make a joke. If somebody should get to him (the caller), he'll have had it."

To Monitor Calls

The mayor said he would ask the telephone company to monitor incoming calls in order to trace anonymous threats. It was suggested this week that night watchmen be assigned to the high school, and Fire Chief Edward Miller advised that dry powder extinguishers should be available to the watchmen. He said the extinguishers could "snuff out" any incendiary which might be thrown into the building.

The council adopted a motion expressing appreciation of the city to the school board, administrators, police and others for their "tireless efforts" to ease the tense racial situation. It was agreed that the children be taken back to school.

Parent Group Meets

The Madison high school problem of cheerleader selection and the 17 suspended Negro athletes was shuttled back to the 16-member, parent citizens committee Tuesday night in a meeting in the cafeteria at the high school.

The meeting was called by school board member John Gitchiff in telegrams sent to individual members of the committee early Tuesday. Also on hand were several members of the school board, High School Principal Francis Dant, Supt. Raymond Dragich and members of a committee of faculty members of the high school.

After Gitchiff opened the meeting with a discussion of the problem and the sequence of events that led up to the call for Tuesday night's meeting, the parent committee decided to hold a private meeting and retired to the high school kitchen to do so. The committee met for approximately three hours, calling in school officials, faculty members, coaches and others for points of information.

Discuss Principal Issue

George Darling, operator of a Madison Dairy Queen establishment who was chosen as the spokesman for the group, said the committee concentrated only on the conflict between white and Negro parents over suspension of 17 Negro members of the high school football team because they boycotted practice sessions.

Darling told the Press-Record that "we (the committee) are not considering the request for more Negro cheerleaders as too serious . . . we think that can be straightened out without too much trouble. Our major problem is in solving the conflict of rules over the suspension of the football players."

The school board sought last week to delay the beginning of the boycott by NAACP leaders until after tonight's school board meeting.

Since the boycott was initiated Monday morning it has been effective in keeping Negro students out of the schools. The action was preceded by rumors that many Negro parents did not subscribe to a plan to keep their youngsters away from classrooms.

Large numbers of students were out of the Madison high school and Blair and Dunbar elementary schools. The high school has a total enrollment of 750 students including 300 Negroes, while Blair and Dunbar are all Negro schools. Absenteeism at the junior high school and the Harris and Louis Baer schools, all of which have only a light enrollment of Negro students, has been reported about "normal" even among the Negro students.

13 Cross Picket Line

As pickets marched in front of the high school Monday morning, school officials reported only 13 Negro youth crossed the picket line by the time classes began at 8:30 a.m. Blair and Dunbar schools, with Negro enrollment of 450 and 540 respectively, were almost deserted.

Only ten of the high school's 300 Negro students reported for classes Tuesday and school officials said the situation "just about the same" yesterday morning, third day of the boycott. At Blair school 11 students reported for class. Actual figures for Dunbar school were unavailable, but school authorities reported a "mere handful" reported there on all three mornings.

Harris school has an enrollment of 576 students, of which 28 are Negroes. Porter Cavely, principal, said apparently none of the Negro students are honoring the picket line. At Louis Baer school, with total enrollment of 386, Principal Kenneth Williams said that about five of the school's 20 Negro students honored the picket line.

A picket line was established in front of the business office of Madison Stephen Maeras at 419 Madison avenue Monday afternoon. Maeras has offered his services in helping solve the problem "if I am needed," but he said this morning he has not been invited to participate in board meetings. He said, however, that he probably will attend tonight's board session.

MORE ABOUT 65-Acre School

The newly-purchased campus will have about 100 feet of frontage on Route 203 south of the Bowland bowling lanes and north of the new right-of-way of Maryville road. Not involved is a small area into which Bowland may expand.

The western side of the 253 x 120-foot tract will follow the curving route of Maryville road, which is now straight south of Route 203.

The state highway division is acquiring 4.98 acres to enable the road to cross railroad tracks west of Route 203 at right angles rather than the present sharp angle.

The site committee consisted of Dr. E. W. Walton and George Moore sr. of the school board, Supt. Bob J. Davis, Park Board President Barry Loman, School Attorney Maurice Dailey, Mitchell Principal Arthur Menendez and Edwin F. Reiske, Trades & Labor Council president.

The southwestern Illinois Metropolitan Area Planning Commission and Tri-City Regional Port District cooperated with the committee.

Red Cross 'Voices from Home' to Start

"Other than being at home with you and the children, nothing could have been more heart-warming than hearing your voices on the Red Cross 'Talking Letter' I received this week."

So wrote Specialist Five Charles Porter, a 14-year Army veteran who was serving in Vietnam last December, to his family in Granite City.

Mrs. Ruby Overbeck, executive director of the Tri-City American Red Cross Chapter, today announced the 1967 "Voices from Home" recording project will start Monday and continue each weekday from 9:30 a.m. to 4 p.m. at the local Red Cross office, 1411 Twenty-first street.

annual pre-holiday service which is offered to Quad-Cityans until the week before Christmas. Although primarily designed for relatives of servicemen overseas, Mrs. Overbeck said an invitation to record messages is extended this year to families of military personnel hospitalized in this country.

Additionally, military dependents with relatives abroad and exchange students residing in the area also may record greetings at the local Red Cross office, the director announced.

Appointments to make a recording are not required, Mrs. Overbeck said. She pointed out that the Tri-City chapter will provide the recording facilities, an unbreakable disc able to record 15 minutes of conversation

Teenagers March Brings \$100,000 for Children

By LESLIE HEDRICK
On Oct. 7 and 8, many of you were plagued by doorbell-ringing teenagers collecting money. If the purpose behind all this never reached you, this will clarify it somewhat.

The teenagers were some of the 15,000 in the St. Louis area who marched for A.L.S.A.C. (Aiding Leukemia Stricken American Children).

The money collected in this march was given to St. Jude Children's Research Hospital in Memphis, Tenn.

The hospital is dedicated to fighting catastrophic diseases with both hospital care facilities.

St. Jude, which is free to

children of every race, creed and color, also gains knowledge about diseases through medical research.

As for the march itself, it was organized by Danny Thomas and Johnny Rabbitt.

The many teenagers who volunteered to march for this great cause gave up their own free time to do so.

Through their efforts, and all the kind people who donated money, they made the St. Louis-Granite City area first in the nation, with more than \$100,000 collected.

So, all the marchers that did ring your doorbells those two days would like to thank you all for your generosity and for helping in the never-ending fight against leukemia, muscle disorders and childhood cancer.

But, mostly, many, many thanks for making a child's life seem a bit brighter.

GC Rotary Club Meets University Students

Two Washington University undergraduate students discussed various aspects of campus life Tuesday when they addressed Granite City Rotarians at their luncheon meeting in the YMCA.

Mark Magenheim of Florida, a member of the Campus "Y" cabinet, who is attending Washington University on scholarship, described a special "Y" community project that involves tutoring underprivileged children in St. Louis.

A sociology major, and a junior, Magenheim said that between 100 and 120 students from the University directly participate in the extra-curricular program. He said the tutoring service helps to motivate the children to learning.

Magenheim commented that the program benefits not only the youngsters, but also the students themselves. "This type of service relates the college-age person to the community and takes one out of the cloistered atmosphere of academic life into a vastly different world into a vastly different world. A world that to most of us is totally unfamiliar," the youth said.

The other guest was Andres Gomez Alayon, a Washington U. sophomore, who discussed the Rotary Interact program.

The native of Spain, who for the past several years has lived in Puerto Rico where his family was exiled, said he became involved with Interact while a high school student in Puerto Rico.

Through a boyhood friend in Spain, who is currently studying medicine at Washington University, Alayon said he became interested in attending the school. He is working towards a degree in architecture.

The student reported he hoped one day to return to his native land to work, thereby fulfilling a promise made to his grandfather, a former provincial governor in Spain.

Both undergraduates spoke highly of campus life at Washington University. They stressed the vast majority of students are acquiring a good education with only a small portion of the student body involved in so-called "protest moves." The youths also commented that such activities appear to have little or no effect on the remaining students.

The guest speakers were introduced by Marvin Van Metre, local YMCA official. For five members attended the luncheon.

Arthur R. Koerber, Rotary president, announced the formal induction of five new club members, including Salvation Army Capt. Harold R. Thomas, Robert N. Scheibel Jr., Harold G. Baumann, David A. Todoroff and Lt. Col. David V. Fox, deputy commanding officer at the Army Depot.

Pastor Herman Neunaber, president of the Southern Illinois District of the Lutheran Church, Missouri Synod, will perform the rite of installation.

The second vice-president of the district, Pastor Leland Lockman, will preach the sermon. Pastor Alvin Kollmann of Collinsville, who served the congregation during the vacancy since Pastor Alfred Bult accepted a call last July to Bethel Lutheran Church of University City, will serve as liturgist, together with Pastor Samuel Boda of St. John's, and Pastor Arvin Twietmeyer of the Lutheran Church of University City, who as Collinsville Circuit Counselor counseled the congregation during its selection of a new pastor.

Hope's Choir, under the direction of Albert Froenling, will lead the procession. Benjamin Lamm, chairman of Hope Congregation, will present the liturgical stole, symbol of the pastoral office, to President Neunaber to place it on the shoulders of the new pastor.

The congregation has prepared a reception for their new pastor to immediately follow the installation service in the church basement.

S. Illinois Quail Crop Up 12%, SIU Study Shows

This fall's southern Illinois quail crop looks like the biggest since the banner years of 1957-58, according to a pre-season survey.

The 18th annual quail population study conducted by Southern Illinois University's Cooperative Wildlife Research Laboratory shows that bobwhite numbers are up 12% from last year, which was far above average for bird production.

The count shows a 61% increase over 1965, a bad year comparable to the low points of 1960-61 during the history of the survey.

Willard Kilmstra, director of the SIU-Carbondale laboratory, said "an interesting population pattern seems to emerge from the data" now at hand. This season's recovery peak comes 10 years after the best two-year period in survey records. The best back-to-back quail seasons before that time, according to other reports, were those of 1947-48, another 10 year interval.

"If this means anything, we could expect a sharp decline in quail next year," he added. The winter carryover of breeding birds appeared to be excellent. The study, done in collaboration with the Illinois Natural History Survey, is conducted on a 1500 acre plot near Carbondale which is representative of downstate quail country.

One problem that bothered hunters last fall may be even more pronounced this season. There are lots of birds, but cover conditions are prime and unharvested corn and soybean fields still stand throughout the area.

"Hunters should be especially concerned about permission to hunt and work dogs in these fields," said Kilmstra. "That's where the birds are going to be."

The season opens Nov. 18 and runs through Dec. 31.

Foreign Policy Team Details Sentiments in Far East

Current anti-Vietnam War demonstrators on U.S. college campuses apparently have little effect on public sentiment in Far Eastern countries allied with the U.S., or in altering the official position taken by those nations.

Communist nations, however, continue to magnify such incidents, thereby attempting to discredit and reduce the effectiveness of U.S. efforts in all areas, according to members of a U.S. State Department foreign policy team who visited the Granite City Army Depot yesterday.

Howard T. Robinson, labor advisor to the State Department's Bureau of East Asian and Pacific Affairs, told newsmen that campus demonstrations here generally are "too much concern" in countries such as Japan, Korea, Malaysia or the Philippines.

Most Asian nations have experienced frequent protest movements in one form or another originating from their own universities, only to see the most extreme and fanatical students settle down into respectable citizens with a clear viewpoint of the overall, balanced picture once campus life is left behind, Robinson said.

"We, as foreign policy people, are most concerned with all facets of public opinion to the Vietnam war," the State Department official pointed out. "Orderly dissent is understandable," he added. "It is only damaging when that dissent be-

comes unreasonable." One team member said some officials relate the rash of campus demonstrations to earlier "penny raids" and "gold fish" episodes.

Noting that the team visited at Culver-Stockton College in the Quincy-Canton area Tuesday, Rufus S. Smith, State Department director for Relations with Canada, said students who met with the government officials "were very responsive and mature young people. We encountered no hostility during talks with students or faculty members," he added.

While visiting the local military installation, the foreign policy officials also addressed a luncheon meeting of the Federal Executive Board of Greater St. Louis, hosted by Col. Charles H. Hokin III, CGA.

Referring to reaction over the Vietnam War, Smith pointed out that anti-war demonstrations in Australia and New Zealand prior to the general elections, had little or no effect on their outcome.

Many observers believe that demonstrations staged during President Johnson's visit became a contributing factor in the sound defeat of the New Zealand labor party which advocated strong anti-Vietnam policies.

SIU Project in Mali Explained by Educator

Mali is obtaining an immense and diverse volume of financial and technical aid from both friendly and Communist nations but is trying to chart its own course by putting its own men in charge of all programs, dinner gathering of 80 was told Tuesday night at the Round Table, Collinsville.

Sponsored by the SIU Liaison Committee of the Tri-Cities Chamber of Commerce, the meeting featured photographic slides and a talk by Dr. Eric Sturley, SIU-SW mathematics professor. For the past three years he headed SIU's

educational assistance program in the African nation. Harold R. Fischer, liaison chairman and a member of the university board of trustees, served as toastmaster. Those present included Dr. Ralph Ruffner, an SIU vice-president, and Howard W. Kaseberg, Chamber of Commerce president.

With average annual per capita income of \$50, Mali has faltered economically since cutting its ties with France, which still provides extensive administrative manpower, the group was told.

The major nature of the construction and teaching projects carried out by numerous countries in Mali is upgrading it, but many of the benefits will be lost when managerial personnel are withdrawn and the largely uneducated citizens take over, Dr. Sturley predicted.

In following a socialist pattern, Mali is sacrificing living standards in the hope of developing facilities that eventually may enable it to compete for world trade, he noted; Americans help is not appreciated because of the socialist concept, in which aid is viewed as a right rather than as a gift, and because of a false view of the U.S. as a country that exploits colonial territory.

What if, despite all the precautions you still fall victim to the flu? How do you recognize it? How do you treat it? Flu is usually characterized by sudden chills, fever, headache, muscular pains, sore throat, dry cough and nasal obstruction. If it appears to be a serious case, seek prompt attention.

Rest, Eat Lightly If these symptoms appear only in a mild form, however, these tips might prove helpful during the recovery period:

1. Rest in bed.
2. Drink plenty of water and fruit juices.
3. Rest lightly.
4. Maintain body heat, especially during the sweating period.

If your temperature continues to rise or other symptoms become severe, professional care should be sought immediately to avoid serious complications. There are dangers of infection in the bronchial tubes and lungs from the flu, and these complications can make you susceptible to pneumonia.

SIU-SW Library Gets Books From Iron Curtain Countries

Southern Illinois University's recent book acquisition from people behind the Iron Curtain give rise to prospects for a more liberal exchange of cultural information between America and the Slavic nations.

Stanley Kimball, assistant professor of social sciences at the Southwestern campus, who has been a key figure in the development of Slavic literature at the new campus, said contributions this year by sources in Poland and Czechoslovakia lend credence to this forecast.

He said several book shipments have come from a publishing house in Poland, while other volumes have been received from individuals in the two countries. Most of the texts deal with life and culture of the Slavic nations.

"Books Invaluable" Kimball, who has made several trips behind the Iron Curtain, says the books are an invaluable addition to the SIU collection. In his six-year effort to enrich the Slavic collection, which is housed in the Lovejoy Library, Kimball has seen more than \$500 rare volumes placed on the shelves. Many of these have been gifts from "Slavic Friends of the Library," a group of Slavic-descended people from the two-state metropolitan area who voluntarily help with the assemblage of Slavic materials.

Vets Getting Benefits To Account for Income

More than 107,000 Illinois veterans and dependents who last year received \$90,834,000 in Veterans Administration pensions will be called on Dec. 1 to make other annuities or investments—will be mailed with pension checks to be paid Dec. 1. Window envelopes are enclosed to facilitate return of the report cards to the proper office. Veterans drawing zero or less-connected disability are not concerned.

John B. Naser, manager of VA's regional office in Chicago, said VA needs the income information to determine the veteran's or widow's entitlement to more pension, less pension or

for SIU-SW's library. These donations are made through the SIU Foundation at Southwestern Campus, whose director, Charles Schweizer, former local Army Depot commander, aids the library and Kimball in the search for other Slavic volumes.

From Throughout U.S. Many of the books have come from individuals from throughout the United States. These gifts are inspired by letters and personal calls by Slavic friends as well as contacts by Kimball.

Although Kimball is deeply interested in furthering both the domestic and foreign flow of documents to the library, he would prefer to have someone else lead the project. An active author, traveler, researcher and lecturer, Kimball also is helping build an extensive library on Mormon history. It, too, is housed in the Lovejoy Library, complete with microfilm documents dating back to the Mormon occupation of Nauvoo, Ill. and beyond.

Even though he finds these projects time-consuming and sometimes hectic, he maintains their development will lead to greater understanding between civilizations and groups.

"After all," he states, "it's always better to know the other fellow's story even if it conflicts with your own interests."

until the bonds are sold. Calvo pointed out that the city could encounter difficulty on the bond market, because of fluctuations on the market, the tight money problem and the 6% interest rate limit.

Several aldermen said they had noted bond sales problems in other communities because of the interest rate restriction. The city was offering the bonds at par value with no discount.

Voting for rejection of the lone bid were Aldermen Dallas, Maerlin, Bartusik, Whitmer, Pauls, Green, Jarrett, Dawes and Johnson. Opposed were Rutledge, Baskrich, Fry and Robertson. Those absent were Boyd, Nona and Parmley, with circumstances. The \$254,000 sewer project is to serve about 270 homes in North Granite and Nameoki areas. The remainder of the cost is to be financed from the \$1,500,000 federal sewer grant.

Clod Hits Windshield, Madison Woman Injured

Mrs. Ann Botis, 38, of 1916 Reynolds street, was injured when a clod of dirt was thrown through the windshield of an auto which she was riding on Interstate 70 in East St. Louis Sunday night.

She suffered minor facial cuts. Ray Kozielek, 1703 Sixth street, Madison, the driver, was not hurt. The object was thrown by a vandal from a railroad overpass near Baugh avenue. Two other automobiles also were damaged, and a youth was seen running away.

'Copter Pilot, Underwater Expert in 'Yule Mail Call' List

Two former members of Paddlers' competitive swimming team—one who recently received his wings

left for Vietnam less than one week ago, and the other training at a U. S. Navy amphibious base as an underwater demolition expert — are among local servicemen whose names and addresses appear in the Press-Record's 14th "Yule Mail Call" List.

Today's list also includes the addresses of two first-cousins, currently serving in Vietnam. Both bear the same name and were born and reared in Venice.

Additional names will be published as information becomes available. It is suggested that readers clip-out and retain the

lists as they appear adding the servicemen to their Christmas mailing lists.

Relatives, friends, church and service groups, former employers and other individuals are invited to provide the serviceman or woman's name for inclusion in "Yule Mail Call."

To ensure proper delivery, it is important to accurately list the serviceman's name, rank, serial number and address, including APO or FPO number.

Those submitting names of military personnel serving at home or abroad are asked to send in the information by letter or post card, or bring the written details to the Press-Record, 1815 Delmar avenue.

Helicopter Pilot

Warrant Officer Ronald H. McBride, 19, son of Mr. and Mrs. Francis E. McBride, 3009 Franklin avenue, and husband of the former Miss Patricia Hoffman of Granite City, left last Friday for duty at Duc Pho, Vietnam.

An Army helicopter pilot, WO McBride has been assigned to the 174th Aviation Company. He received his pilot wings and was commissioned Oct. 24 at Fort Rucker, Ala. He spent two weeks on leave at home prior to embarking for Vietnam.

The local officer was graduated in 1965 from Granite City high school and attended Southern Illinois University-Carbondale and Northwestern campuses before enlisting in the service on Nov. 16, 1966.

An expert bowler, WO McBride was employed during his high school and college years

as an assistant manager and instructor at Tri Mor Bowl.

For several seasons, he competed as a member of the competitive swim team of Paddlers Inc., a private swim club, founded in the mid-1950s by his mother, the late Mrs. Vera McBride. His father is employed in an executive capacity at General Steel Industries.

One of the Army helicopter pilot's fellow competitors in the Southwest Illinois Swimming Association and a top Paddler swimmer for several seasons, Randall H. (Randy) Thompson, son of Mr. and Mrs. Paul Thompson, 2146 Woodlawn avenue, has turned his swimming ability into a demanding career while serving with the U. S. Navy.

U. S. Navy Frogman

Thompson, 21, a butterfly and back stroke champion in SWISA competition just a few years ago and a member of the SIU-Carbondale Varsity swim team while a student there, currently is undergoing advanced training as a U. S. Navy frogman.

Among the few members of an elite group who survived the initial rigorous testing and training program that demolition experts must undergo, May 18 from the U. S. Naval Amphibious School at Norfolk, Va.

Of the original 137 men who started the basic training class 19 weeks earlier, only ten officers and 25 enlisted men completed the course, which included reconnaissance and demolition instruction as bases in the

United States and Puerto Rico. Part of the testing procedure, involved such strenuous activity as swimming distances of eight miles or more.

Since completing the initial course, the local swimmer has undergone instruction in "scuba" and "hard hat" diving in Florida and paratroop training at Fort Benning, Ga.

Thompson, a 1964 graduate of Granite City high school, competed in YMCA and Granite City park district swim meets from an early age. He served as co-captain of the Paddlers swim team and was employed as a life-guard at the local pool.

Hrs. Louise Townsend, 2702 Roosevelt street, submitted the names of her brother, Pfc James Owens, whose parents are Mr. and Mrs. Elmer Owens, 1003 Fourth street, Venice, and her cousin, Specialist Fourth Class Jim Owens, 21, a son of Mr. and Mrs. Wesley Owens of East St. Louis, formerly of Venice.

Co-incidentally, James' name and address also were sent in by a friend, Marjorie Fritter, who told the Press-Record, that she had asked that his address be given to anyone who would write him. "He promises to answer every letter he can," the writer reports.

Quadrants mailing greeting cards and packages to servicemen overseas are reminded to include the Army Post Office (APO) or Fleet Post Office (FPO) number in the address. Military postal authorities reported the APO and FPO five-digit number is essential to fast delivery of mail.

Yule Mail Call (Clip and Save)

Quadrant servicemen and women stationed around the world, whose names and addresses are being published in each issue of the Press-Record as a special pre-Christmas public service. It is suggested that readers clip-out and retain the lists as they appear.

Local residents are invited to include the servicemen on their Christmas mailing list and send greeting cards, letters or packages, thereby helping to brighten the coming holiday season for military personnel who are away from their homes and families. Early mailing is recommended.

WHAT
MAKES
A happy
family?

It's something we all want, for ourselves and for the world. But if we work within the limits of human frailties, a happy family may seem a difficult goal. What we need is a new approach... a spiritual dimension that puts God at the center of all family relationships. Hear this lecture "What Makes a Happy Family?" by HARRY S. 4-Year Scholarships

Offered to Seniors

Fifteen scholarships, each worth more than \$10,000, are being offered by the Lockheed Leadership Fund to qualified high school seniors planning to start college next fall. Scholarships provide: Free tuition and basic expenses at leading colleges and universities for four years. \$500 a year for personal expenses.

Ten of the scholarships are in the fields of engineering and science. Five are in business-related fields. The purpose of the scholarships is to help prepare students for scientific and business careers in the aerospace industry.

Seniors eligible to start college next fall may apply. Applicants will be judged by their leadership qualities, as reflected by school grades and the student's participation in school and community activities. Church, Meeting Keep DeMolays Busy Sunday

About 70 DeMolays and their parents attended St. John United Church of Christ's 9 a.m. devotional service led by Master Councillor James Fitzpatrick this week.

Rev. Paul Surbey's sermon, "Seeing and Developing Persons," emphasized that people should not be generally categorized into groups but should be recognized as individuals for the qualities they represent.

He stressed that the young people today are seeking and need tenderness and are very competent.

Following the devotional service a group drove to Beardstown for a Southern Illinois DeMolay jurisdictional meeting hosted by William M. Thomas chapter, Beardstown.

Mike Ansell of Jerseyville was installed as the new jurisdictional master councillor and Ronald Knecht of Tancred chapter, Belleville, as the new jurisdictional senior councillor.

After the meeting the DeMolays toured the newly opened Oscar Mayer meat processing plant, the most modern of its kind in the U. S.

DeMolays attending from Granite City were L. Kirk Danner, Robert Epping, Bruce Hawkins, Michael Few, Dale Jones, William Klee, James Naeve, Albert "Tim" Noud, Danny Taylor, John Tolbert, Joey Vaughn and William Watson.

They were accompanied by advisors E. Gilbert Watson and Charles A. Meyer.

Home Notes

By Mrs. Catherine R. Mauck, Madison County Home Adviser, Home Economics Extension of University of Illinois

Would He Marry You Again?

Dr. John Shultz, Family Life Specialist at the University of Illinois, suggests you answer these questions and find out: would your husband marry you today?

1. Do you make the same strong effort as you did during your courtship to keep your moods and temper under control?
2. Do you listen — really listen — when he talks?
3. Are you as careful about your grooming when "only" your husband will see you as at other times?
4. Can you see the funny side of almost everything — except your husband's efforts to impress you?
5. Have you become a good-to-excellent cook during marriage?
6. Are you a good money manager, neither extravagant nor pinch-penny?
7. Are you a "middle-of-the-road" housekeeper — not too so fanatically neat that the roof falls in if he drops an ash on the rug?
8. Do you never — well, hardly ever — complain about his side of the family?
9. Do you avoid belittling his job or his money-making ability?

Nine "yeses" and it's a cliché he'd pop that big question all over again—but are you really that perfect? Check your answers again. A score of six to eight indicates that almost any man would say "I do" to the chance to wed you again. Five "yeses" or less, however, and you're an apprentice mate who may need further training.

But apprentice mate of wife, first class, you can be sure of an "OK" rating from the man in your life by heeding these ten man-pleasing pointers says Dr. Shultz.

1. When he talks, don't interrupt. It's a feminine habit that drives men wild!
2. When the two of you are out with friends, be his "straight man." Laugh at his jokes, turn the conversation to subjects at which he shines.
3. Have an attractive hairdo every day, not just when you go out. Men agree that pretty hair is probably the single most important part of feminine grooming — make sure yours is a crowning glory, not a sad story. Find a simple, becoming coiffure you can fix easily and quickly—and do it!
4. Wear perfume every day. He's bound to notice, if only subconsciously.
5. Ask his advice whenever possible. Consult him before making social commitments, before choosing home furnishings (it's just barely possible he may not like a pink and purple bedroom), even before buying a dress. Purchase clothes you can return — and return any outfit he doesn't like!
6. Fix his favorite foods without being asked—even if you can't abide them. Learn to make a superb, not just a good, cup of coffee. A clue: most men like coffee strong, most women brew it too weak; try two level tablespoons per cup.
7. Show a saving grace — and with the pennies you can save from your allowance, start a bank account. Whether you use it for important fam-

ily projects or frivolous shopping sprees, it will help avoid money arguments.

8. Say nice things about your in-laws even when he criticizes them. This establishes you as an angel.

9. Never compare him with other men — except to point out how much better he is in some way!

10. Often tell him how glad you are that you married him!

Use Cranberries to Perk Up Winter Meals

If you continue to limit your cranberry use to sauce and jelly, you're missing many opportunities to perk up winter meals.

With a bit of experimentation you'll find at least a dozen other ways to use the bright red berries to add zest to your meals, say University of Illinois home economists.

Chilled cranberry juice is a good beginning for lunch or dinner, especially if you add a stick of cinnamon to the juice an hour or two before serving time.

Either the cranberry sauce or the jelly makes an excellent glaze for baked ham. Spread a thin layer of the sauce or jelly over the ham about half an hour before you take it from the oven.

Cranberry muffins, right from the oven and served with plenty of butter, are a welcome addition to breakfast or lunch. They are easy and quick to prepare. And leftovers are delicious with afternoon tea. Split the muffins in half, toast them and spread them with butter to which you've added a dash of cinnamon.

For an extra-special dessert, try cranberry pie. To make it more colorful, use a crisp crust for the top. Serve with a generous wedge of sharp Cheddar cheese or a small ball of cream cheese to which you've added a dash of lemon juice.

Cranberry betty is a dessert that can be ready for the oven on short notice. Bake it in individual cups or in a large baking pan. Serve it crisp and warm with half-and-half.

National Lead Awards SIU Research Contract

The National Lead Co. has established a research contract with Southern Illinois University's chemistry department for work that could lead to new ways of producing polyethylene and polystyrene plastics.

Object of the studies to be conducted in the laboratory of C. David Schumacher will be to develop substitutes for titanium-aluminum compounds now used as catalysts in producing the plastics. The aluminum mixtures are inflammable, hard-to-handle, and can't be stored. National Lead produces compounds used as catalysts for making ethylene and acetylene polymers.

The \$11,400 annual contract will provide an assistantship for an advanced-degree student working under Schumacher.

The lead company will welcome SIU chemistry students for summer work at its Hawthorn, N. J., headquarters. Schumacher said the firm may also send its own research specialists to SIU for advanced degree work in chemistry.

New Hours Fixed For Gateway Arch Train Schedule

New hours of operation of the Gateway Arch train will take effect Tuesday, the Bi-State Development Agency announced yesterday.

The hours will be 10:30 a.m. to 6 p.m. Tuesdays, Wednesdays and Fridays, 10:30 a.m. to 8 p.m. Thursdays, 10 a.m. to 10 p.m. Saturdays and 10 a.m. to 9 p.m. Sundays.

The sale of tickets will be suspended each night to permit all passengers having tickets to be transported. A ride to the top of the arch requires a minimum round trip time of about 20 minutes, including the viewing time, and it is essential that the last full load go up not later than a half-hour before the announced closing time.

The time required to purchase a ticket and obtain a ride is now generally 10 to 20 minutes during week days, but on Saturdays and Sundays the time required could be as much as an hour.

The transportation system is closed Mondays for routine maintenance.

Army Enlistees May Remain Home 120 Days

Men may now enlist in the Army and spend the next 120 days at their homes under a recently announced program, according to Sfc Harold C. Pfaff, local recruiter.

The plan assures enlistees

that they would spend the Christmas and New Year holidays with their families.

Sfc Pfaff said that many men who are expecting to be drafted before Christmas are taking advantage of what is called "the 120-day delay option" to be at home for the holidays.

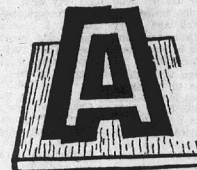

The recruiter said the plan allows young men to enlist now

and be placed on reserve status before they are called up for basic training and active duty 8' BED, REAR STEP BUMPER assignments.

That was the year they put the balance wheel into the watch and started watches ticking. Now the tick tick is obsolete. After 300 years, it's been replaced by the tiny Accutron tuning fork which keeps time through vibrations. The result: a very faint hum and the most precise wrist timepiece ever. Accutron guarantees average daily accuracy within 2 seconds. (We might mention that the Accutron movement is used in U.S. satellites and has been issued to all X-15 pilots.) We'd say this is the perfect gift of time.

Chicago Still Growing GC Kiwanians Learn

Development of Chicago into the third largest city in the United States and its continuing program of expansion and renewal were described in a movie viewed by Granite City Kiwanians at their weekly dinner meeting Monday. Fourteen members attended the session at the Rose Bowl.

Entitled — "Chicago—Miracle City of the Midwest," the film summarized the growth of the sprawling midwestern metropolis and recounted the history of farsighted Chicago residents who were responsible for its early development.

Michael Toundas, Kiwanis president-elect, conducted the business meeting and appointed Peter Jelen as club secretary for 1968.

Jelen, a past president of the local men's service group, also was named to represent the organization at a meeting of the Madison County Association for Mental Health at Edwardsville. Plans were completed for an inter-club meeting with the Alton Kiwanis next Tuesday. Fourteen members attended the dinner session.

The sermon will be delivered in both of the morning services, at 8:30 and 10:40 a.m., by the minister, Rev. R. Paul Sims. The topic for the sermon will be "Possessions, Patriotism and Praise." The anthems will be sung by the Youth Choir and the Chancel Choir under the direction of Warren G. Simpkins. An added feature of the 10:40 worship service will be the offertory anthem sung by the Church Choir, composed of

boys and girls of the first, second and third grades, under the direction of Mrs. Sims.

The children's sermon, also on the Thanksgiving theme, will be delivered by the associate minister, Rev. Dean Blackburn.

There will be no evening worship at Niedringhaus Church this Sunday. The congregation will join with Methodists of the East St. Louis District in a special Laymen's Rally which will be held at the Nameoki Methodist Church beginning at 4 p.m. The Niedringhaus Youth Choir will be guest choir.

Funds Lacking for Tickets Available Ten New Deputies; Will Get 2 More

Lack of funds will make it necessary for the sheriff's office to be satisfied with the addition of two new deputies instead of the ten originally requested, Sheriff George Musso said at Edwardsville Tuesday.

Although the circuit court had ordered the county board of supervisors to provide ten additional deputies for the sheriff's office, the board's finance committee recommended the addition of only two. In addition the finance committee is recommending an "across the board" salary increase of \$30 per month. Deputies now receive \$175 per month.

"You can't get blood out of a turnip, and even if the court ordered ten more deputies, we can't hire them without the money to pay them," the sheriff said, adding that "the money just isn't there." Musso originally requested salary increases of \$100 per month, plus ten additional deputies.

Finance committee recommendations also provide for an additional patrol car and repairs and an add-on to the county jail.

Tickets Available For 'Miss Hofz' Dinner

Tickets to the silver anniversary dinner planned to honor Miss Eulalia Hofz, Madison county clerk, still are available by writing "Hofz Anniversary Dinner," Box 218, Edwardsville.

Wilbur R. L. Trimpe, Madison county school superintendent, is serving as chairman of the program with State Auditor Michael Howlett as honorary chairman.

A committee of 30 industrialists, newspapermen, and professional and business men and women are serving on the program committee. The dinner will be held at the Mineral Springs Hotel, Alton, at 6:30 p.m. Saturday, Dec. 8. The public is invited. Tickets are \$5 per person.

Grand Jury Re-Called For Harder Murder

The Madison county grand jury was re-called this week by Chief Circuit Judge James O. Monroe to continue its investigation in the Sept. 9 murder of William Harder, 51, of Chouteau Slough road.

Facing murder charges in the shotgun slaying of Harder near his home are Landon Ray (Pug) Fisher, 35, and Eugene D. (Moose) Carroll, 33, both of the Granite City area. Fisher and Harder both were members of the Wood River Carpenters local union.

State's Atty. Leon Scroggins said the jury is expected to make its report on the case either Friday or Monday.

Trades Council Asks for Meeting On Hospital Union

Collective bargaining talks on a contract for employees of St. Elizabeth Hospital were requested yesterday in a letter sent to the St. Elizabeth Hospital administration by Edwin Reiske, president of the Tri-City Trades and Labor Council.

Organization of hospital employees for two union locals was begun a year ago. While union organizers claimed it had signed a majority of employees as union members, no contract negotiations ever have been conducted.

With a letter to Sister Mary Thomas, administrator of St. Elizabeth Hospital, Reiske enclosed photocopies of articles from Washington concerning statements of the Catholic Hospital Association board of trustees affirming the right of hospital employees to form and join unions for collective bargaining.

Suspension of Liquor License Ends Today

A one-week suspension of the county liquor license of the Lakeside Inn Tavern on Eagle Park road outside the city of Madison is scheduled to end today. The license, in the name of Mrs. Earlene Glasper, was ordered suspended by Madison County Liquor Control Commissioner Harold Landolt for operating after legal closing hours.

The suspension was the first disciplinary action taken under the new amendment to the county liquor ordinance providing for closing hours, taverns and retail liquor establishments in unincorporated areas.

Landolt said in a letter to the tavern operator that "we hope this is a warning of what may occur if the closing hours of the regulated liquor laws of Madison county liquor board are enforced."

The suspension was based on information furnished by Sheriff George Musso, who said his deputies found the place open at 4:30 a.m. on a Saturday morning, and that they had investigated a reported stabbing of a St. Louis man at the tavern.

New Method of Determining School Custodial Staffing

The Granite City school board Monday night altered its school custodial manpower policy, which has been based primarily on pupil enrollments.

Eight criteria to be used in determining work load and schedules will be square feet to be cleaned, number and nature of classrooms, enrollment, age of building, location of school, construction of building, activity in the school and the number of floor levels.

In explaining the reason for the change, Tully A. Heubner, director of buildings and grounds, said, "Our present staff consists of 80% comparable jobs, 10% easier and 10% harder to perform. While we may be understaffed in some areas, we are overstaffed in others."

Changes made, effective this week, were a reduction of the Prather Junior high school custodial staff from five and a half shifts to five men, and conversion of an existing four-hour job at Granite City high school to eight hours.

Estimated Cleaning Time
"Estimated time needed for daily general cleaning is based on 25 minutes for cleaning an academic classroom, 30 minutes for cleaning a kitchen, three minutes per fixture in rest-

rooms, 40 minutes for cleaning kindergartens, 15 minutes for office areas, 20 minutes for multi-purpose rooms and 10 minutes per 100 square feet of corridor," Heubner reported.

"Factors taken into account include the fact that a classroom with 36 youngsters is harder to clean than one with 26. Amount of furniture has to be moved twice rather than once."

"Older buildings are normally harder to clean than new ones. We consider whether a school is in a residential or industrial area, whether there are sidewalks to the building and a hard-surface play area, and the type of floors and walls."

"Terrazzo and ceramic floors are much easier to maintain than composition floors; wood floors are easier than composition. Tile walls are easier to maintain than plaster or painted block walls."

A Building with a Lot of Night Activity
"A building with a lot of night activity deducts from the cleaning efficiency of employees working while activity is in progress. And a building on a floor is normally easier to clean than one on a multi-floor plan."

"When the general cleaning is computed, it will seldom work out to be exactly eight hours, and there are probably other considerations which could be used in evaluating work schedules."

"I know of no way to perfectly balance out jobs when they are divided among 22 buildings, but I believe that by using these criteria there will be a more accurate evaluation than with enrollment as the sole factor."

Air for Guidance Services

In other business, the board received notice that its application for financial assistance under the Illinois Program for Improvement of Guidance Services has been approved. The amount to be allocated to Illinois and various school districts is unknown at present.

The board approved placement of student teachers in Granite City schools by Illinois State University at Normal. It has a similar arrangement with SIU-SW.

"ISU made contact with our district regarding such placements, especially in the area of special education," Supt. Bob J. Davis noted.

New Faculty Members

Teachers employed effective with the new semester Jan. 22 were Mrs. Myra J. Carpenter, East St. Louis, 1966 bachelor degree, Central junior high school mathematics, and Samuel J. Meltz, Edwardsville, 1967 SIU bachelor degree, Central junior high school mathematics.

Hired effective Nov. 27 was Larry John Carl, Charleston, Ill., 1967 Eastern Illinois University bachelor degree, Coolidge junior high mathematics.

Beginning Dec. 18, Mrs. Brunhilde Todoroff, 2063 Benton street, also a 1967 Eastern Illinois University bachelor degree, will teach an elementary school class.

Miss Roberta Nash, Collinsville, 1967 SIU bachelor degree, will begin work as a speech therapist Jan. 2.

The board employed Earl L. Albert, 2709 Lincoln avenue, as

an assistant custodian effective Nov. 13.

Custodian Retiring
Charles Hagan, 3104 East 23rd street, a member of the high school custodial staff, will retire Jan. 1.

The board approved a listing of duties assigned the GCHS principal and assistant principals, and tentatively agreed not to meet on the scheduled night of Nov. 22. Next meeting would be Dec. 11.

M. A. Wittevoort, administrative assistant for vocational and adult education, was authorized to attend the annual meeting of the Association of Vocational Administrators Dec. 4-8 in Cleveland.

Miss Virginia Segar, a remedial reading teacher, will attend the National Reading Conference April 22-27 in Boston and Comptroller Victor G. Anderson will attend the American Association of School Administrators meeting Feb. 17-21 in Atlantic City, N. J.

Second Soccer Coach

Appointment of Stanley Wojcik as assistant GCHS soccer coach was announced.

Other members of the board list of substitute custodians showed 78 names and their application dates and test scores.

Thirty-eight secretaries were listed according to seniority, and subsequent assignments are to be based on a combination of ability and seniority.

Another list submitted to the board showed 40 current applicants for cafeteria work.

October attendance was shown as 85.34% in the first twelfth grades and 95.21% in kindergartens.

Farm Bureau to Hold Annual Meet Nov. 25

The Madison County Farm Bureau will hold its 49th annual meeting at 10 a.m. Saturday at Edwardsville high school.

The 50th year of the local Farm Bureau began Oct. 1, and a golden anniversary celebration will be held late next summer, according to Harold Gindler, president.

The meeting program includes reports from officers and staff personnel, entertainment by the Sweet Adelines of Collinsville and a lunch to be served by the Farm Bureau women's committee. Door and attendance prizes will be awarded.

Guest speaker will be L. Goebel Patton of Springfield, Ill., public relations director for the Illinois Education Association.

IYC Regional Youth Conference is Tuesday

Registration for the East St. Louis area conference will open at 6 p.m. Tuesday, with the program to start at seven o'clock. No registration fee will be charged, Hornberger said.

Other participants include John A. Troike, chairman of the Illinois Youth Commission, who will speak briefly; a youth panel comprised of area young people; and Teddy Williams, a former leader of the Chicago "The Viceroy" and a former IYC ward who is now employed as a community worker by Chicago IYC community services.

Miss Anne McGone, special education teacher for the Chicago park district, will serve as moderator for the youth panel. A former youth representative to the Illinois Commission on Children, Miss McGone has served on the planning committee for the Governor's Conference for two years, assigned to work with the youth panel.

Robinson, a former parole officer, social worker and state legislator, is a graduate of Virginia Union University and the University of Chicago School of Social Service Administration.

The public aid director was voted "outstanding freshman legislator" by newspaper correspondents in 1965 and was named "layman of the year" by the Greater Chicago Churchmen in 1968.

He holds the distinguished service award of Frontiers International and the Illinois Welfare Association, the IYC service recognition award, the Ode to Excellence award of the Omega Psi Phi Fraternity, the Dorothy Wrigley Offield Award for distinguished leadership in Planned Parenthood and the Clarence Darrow Humanitarian Award.

Robinson is a member of the board of directors of the National Conference of Christians and Jews, the Family Service Association of America, the Welfare Council of Metropolitan Chicago and the Big Brothers. He serves as vice-president of the Chicago Urban League and deacon and trustee of the Monumental Baptist Church, Chicago, where he has been superintendent of the Sunday school for 30 years.

Power Firms in State Invest \$4.25 Billion

The eleven electric utility companies serving in Illinois have invested \$4.25 billion to keep ahead of the growing power demands of their customers.

A new booklet produced by the companies says these demands nearly doubled during the 10-year period ending in 1966—from 27 billion kilowatt hours to 51 billion kilowatt hours.

The investment by Illinois Power Co., serving this area, totaled more than \$500,000,000 at the close of 1966. To meet rising demands, the company is building a new power plant

near Baldwin in southern Illinois and plans to spend \$28,000,000 for improvements during the five-year period ending in 1971. The 11 companies combined plan outlays of \$1.8 billion during the same period.

The booklet also notes that the state's electric utility companies paid \$28,240,000 in taxes during 1966, with \$108,600,000 going toward local, county and state budgets. Illinois Power Company's tax bill for 1966 was \$41,500,000.

The eleven companies paid their 19,000 employees \$175,000,000 during the year, and purchased more than \$200,000,000

worth of goods and services from Illinois companies.

Copies of the booklet, "The Electric Companies in Illinois," are available at local Illinois Power Co. offices.

The 11 electric utility companies serving in the state are Central Illinois Light Co., Central Illinois Public Service Co., Commonwealth Edison Co., Electric Energy, Inc., Illinois Power Co., Interstate Power Co., Iowa-Illinois Gas & Electric Co., Mt. Carmel Public Utility Co., Sherrard Power System, South Beloit Water, Gas & Electric Co. and the Union Electric Co.

Mrs. Jeanne Gattung Dies in California

Mrs. Jeanne Gattung, wife of a former Granite City resident, died at 6:30 a.m. Tuesday at her home, 8424 Skyline Blvd., Oakland, Calif. She had been ill with multiple sclerosis for the past two years.

She is survived by her husband, Kenneth E. Gattung, a former long-time area resident who moved to the west coast

in the late 1940s; two sisters-in-law, Mrs. Eldred (Bernice) Starring of Pontoon Beach and Mrs. Upton (Virginia) Gardner of Troy, whose husband operates the Gardner Ag Supermarket, 2237 Illinois avenue; and a brother-in-law, William Gattung of Edwardsville.

Born in Oklahoma City, Okla., Mrs. Gattung was employed as an anesthetist before her illness. She formerly resided in St. Louis and was graduated from

JOHN B. BENNETT, newly-named supervisor of salaried personnel for Union Star and Refining Co. He is to arrive here from Elkhart, Ind.

nurses' training at the Missouri Baptist Hospital. She was in her early fifties.

Mr. Gattung is associated with Safeway Food Stores in California.

Funeral services were held this morning at Oakland.

Parents Day Events Set At University Campuses

Southern Illinois University-Southwestern and SIU-Carbondale will hold Parents Days this weekend.

Twenty-three exhibits designed to explain varied programs of instruction at the Southwestern campus will be on display Sunday.

The university has extended invitations to parents of all present and prospective students to visit the campus, tour the exhibits and confer with admissions counselors. All buildings on the new campus will be open, and guests are invited to tour as many as possible during the day.

Activities will begin at 11 a.m. and continue until 4 p.m. Family dinner will be served in the University Center cafeteria beginning at 11 a.m. A variety of menu choices and prices will be available.

University musical groups will be performing throughout the afternoon. Lovejoy library

will be open for visitors and will present a slide-tape program on the library each half hour.

Carbondale Campus

Facilities at the Carbondale campus will be open to parents Friday, Saturday and Sunday.

The weekend will feature campus tours, open houses and coffee hours and recognition of two pairs of parents of the day during the half-time of the SIU-Drake football game. Stage performances and a dance also have been arranged.

Weekend events will begin Friday with a satirical revue in Shryock auditorium. Admission is free. Saturday events include the Celebrity series presentation of pianist Skitch Henderson at 7 and 9:30 p.m. and the play, "The Visit," at 8 p.m.

The SIU museum will have its grand opening in its new quarters in Old Main on Sunday, with an open house from 2:30 to 4:30 p.m.

SIU to Propose Medical School On 'State' Basis

Detailed plans for a Southern Illinois University medical school conducted on a state-wide basis will be submitted to a special committee of the Illinois Board of Higher Education before the end of this month, it was reported by university officials today.

Dr. Robert MacVicar, SIU vice-president for academic affairs, said the university has been asked by the Higher Board committee to submit the plan for an Illinois Medical school. MacVicar has informed SIU board trustees the university will recommend the involvement in medical education of all state schools capable of contributing to the program.

No details of the SIU plan were revealed by Dr. MacVicar pending formal presentation of the program in the Higher Board committee, but he said it will not be along "traditional" lines, but instead will present the idea of a "school without walls" which will fix the state's boundaries as the school limits.

U of I Has Plan

"At the moment we are not prepared to discuss the matter with the press, but after a formal presentation is made to the committee it will become a public document," he said.

MacVicar said the university of Illinois has submitted a plan to the Higher Board, but that it is along "conventional" lines and suggests it be located on the University's Urban campus.

He added that the program will include some points that will be offensive to the doctors and perhaps the public.

The proposal would "dramatically" modify the curricular pattern presently followed by physicians, Dr. MacVicar said.

He said the university wants a system to provide service throughout the state and feels that a conventional type proposal would be of no service. The proposal will include discussion of a "medi-net" providing a central information center available to doctors on a vast scale.

Friends of Music Need Player Piano

The Friends of Music at Southern Illinois University-Southwestern campus are seeking a player piano for the several hundred player piano rolls the university recently received.

Mrs. Byron L. Morgan of Alton, president of the Friends of Music, explained the organization is made up of volunteers who seek to promote music both on the new campus and in the local area communities.

The group is governed by a 24-member board that includes students. Anyone caring to donate a player piano may call the university—692-3600.

Lewis & Clark Library Budget at \$194,795

The board of directors of the Lewis & Clark Library system adopted a 1968 budget of \$194,795 at a meeting Monday night. It is \$62,127 less than last year's budget.

The budget allows \$68,650 for library materials, including purchase of books, 16-mm films, slides, films, framed prints, periodicals, pamphlets and photographic records. Personnel expenses totaled \$61,600 to pay salaries to a staff of 14 persons.

A report from the building committee said bad weather has caused a delay in construction of the new Lewis & Clark library underway on Goshen road south of Edwardsville. Completion is expected next fall.

Card of Thanks 32

We would like to express our most heartfelt thanks for the many expressions of sympathy at the departure of our beloved wife, mother, grandmother and great-grandmother, MRS. HELEN T. KEUENHOFF. We were overwhelmed. We of the immediate family always knew how kind she was, but now we know, also, how many dear friends outside the family circle must have been attracted by her kind disposition. Those who knew her will never forget her. We miss her, now and always.

THE KEUENHOFF FAMILY
